

Redmine - Feature #15409

Is it possible to view History section in pages?

<b>Target version:</b>			
<b>Resolution:</b>			
<b>Description</b>  1. Imagine that some guy submitted a issue and then developers have discussed it for a long time. That makes the History section very very long. Could we add a feature to show the history in pages when there are too many items (or collapse/expand details of the comments)? 2. Same as the Projects list... The Projects page is very long when there are a large amount of projects.
