<b>Description</b> I've updated to latest revision ( <a href="#">r1593</a> ) today and tried to do a clean DB install.  Executing rake db:migrate got me this  -- create_table("workflows", {:force=>true}) -> 0.0036s rake aborted! Mysql::Error: Unknown column 'position' in 'order clause': SELECT * FROM `custom_fields` WHERE (type = 'UserCustomField') ORDER BY position  MySQL: 5.0.51a
