

Redmine - Feature #15566

Setup a default issue report for each project

2013-11-28 15:11 - Michael Broutin

Status:	Closed	Start date:

Category:	Issues	Estimated time:	0.00 hour
Target version:			
Resolution:	Duplicate		
Description I usually set up a few public reports for the projects my team is working on. What's missing is that each time I (or another team member) logs in to my redmine server, I need to select the public report I want to display. It would be nice to be able to select a report as the default one (either 'just for me' or 'for everyone') that shows up when you open up the project.
