

## Redmine - Defect #15667

### Fix shadowing variable

2013-12-10 11:34 - Ilya S

<b>Status:</b>	New	<b>Start date:</b>	
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>	Text formatting	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>		<b>Affected version:</b>	2.4.1
<b>Resolution:</b>			
<b>Description</b>			
fix using two different objects with same name, may cause problems			

### History

#### #1 - 2013-12-10 13:01 - Toshi MARUYAMA

I think it does not cause problem.

```
def test(text)
  "test " + yield("yield " + text)
end
```

```
text = "aaaa"
text = test(text) do |text|
  puts text
  "block " + text
end
```

```
puts text
```

```
$ ruby a.rb
yield aaaa
test block yield aaaa
```

r10209 has tests.

#### #2 - 2013-12-10 14:10 - Ilya S

yes, it isn't in this case, but may cause, because you create two different objects in same scope. Do you really think that's ok? Why do you rely on assumption that this piece of code will interpret right, instead of write it right?

and one more thing: code like this really hard to read, and maintain.
