Description On "My page" I have a "Watched issues" widget. It shows the issues count in parentheses, and currently it shows 13 there. However, in the list itself there are only 9 issues. I figured out that 13 is the total number of all watched issues, including closed ones. The expected behavior is: watched issues counter should show only the number of open issues. Watched issues count on "My page" is shown for all issues instead of only open ones (#15777).

Patch by Karel Pičman and Go MAEDA.

Yes, there is an inconsistency in the issue status. While we see all watched issues in *MyPage* The link refers to open issues only.
Please apply the attached patch that display open watched issues only in *My page*.

- Target version set to 3.3.0

I agree to change the behavior. I rarely want to see closed issues.
Here is an updated the patch for the current trunk.

Both widgets "Watched issues" and "Issues assigned to me" show only open issues. "Reported issues" shows issues with any status. I am pretty sure this is a defect. See [#23472](#).
