Redmine - Defect #15780

Filter issues by date time (instead of only date) in REST API

2013-12-29 19:22 - Holger Schmidt

Status:	Closed		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	REST API		**Estimated time:**	0.00 hour
Target version:				
Resolution:	Duplicate		**Affected version:**	2.3.2

Description

I'd expect the date filters in the issue REST API to work with date time values as well as with dates.
I wanted to filter for issues updated after a specific time. Using the date time filter

```
unencoded:   updated_on=>=2013-12-29T17:17:33
URL-encoded: updated_on=%3e%3d2013-12-29 17%3a17%3a33
```

in the ISO 8601 format yields the same internal server error as using the date time format used for the *updated_on* node returned by another successful query:

```
<updated_on>Sun Jan 03 12:08:41 +0100 2010</updated_on>
```
