

Redmine - Defect #1589

link to a specific revision of a file doesn't work from revisions/show (fix included)

2008-07-06 21:35 - Lasse Jansen

Status:	Closed	Start date:	2008-07-06
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	SCM	Estimated time:	0.00 hour
Target version:	0.8	Affected version:	
Resolution:	Fixed		
Description			
Redmine trunk / mysql / svn			
The links to a specific revision of a file are escaped (apache2 proxy balancer blocks them and says file does not exist). Example:			
http://server/repositories/entry/id/vendor%2Fplugins%2Fhaml%2Finit.rb			
instead of			
http://server/repositories/entry/id/vendor/plugins/haml/init.rb			
<pre>--- app/views/repositories/revision.rhtml (revision 1643) +++ app/views/repositories/revision.rhtml (working copy) @@ -50,7 +50,7 @@ <% if change.action == "D" -%> <%= change.path -%> <% else -%> - <%= link_to change.path, :action => 'entry', :id => @project, :path => without_leading_slash(change.relative_path), :rev => @changeset.revision -%> + <%= link_to change.path, :action => 'entry', :id => @project, :path => to_path_param(without_ leading_slash(change.relative_path)), :rev => @changeset.revision -%> <% end -%> <%= "#{change.revision}" unless change.revision.blank? %></td> <td align="right"></pre>			

History

#1 - 2008-07-09 19:49 - Jean-Philippe Lang

- Category set to SCM
- Status changed from New to Closed
- Target version set to 0.8
- Resolution set to Fixed
