Redmine - Defect #159

Error when changing Activity on Time log if the issue has been moved

2007-12-03 18:29 - Jonathan Hall

Status:	Closed	**Start date:**

Target version:			
Resolution:		**Affected version:**	

Description

I ad moved an issue to a different project and later I had created a different activity called "Maintenance"
When I tried to adjust the activity in the issue it threw an error.

After I moved the issue back to its originating project I could update the issue successfully

Cheers

What version/revision are you using ?

Because this problem should have been fixed in r909 (after 0.6 release):
http://www.redmine.org/repositories/revision/1?rev=909

#2 - 2007-12-04 12:04 - Jean-Philippe Lang

Note that this fix isn't retroactive. Time entries of issues moved before this fix won't be editable.

I could make a hot fix migration to solve this.

#3 - 2007-12-04 16:47 - Jonathan Hall

We are on 934

Ah, this is why, the issue was created when we were still using 826 (or there abouts)

Honestly for me it would not be worth it, we don't have that many that are either that old or have been moved. Thanks for the offer!

Cheers!
