Redmine - Defect #15950

Project identifier instructions still too ambiguous

2014-01-23 21:38 - Patrick O'Keeffe

Status:	Closed	**Start date:**	
Priority:	Normal	**Due date:**

Category:	UI	**Estimated time:**	0.00 hour
Target version:			
Resolution:	Fixed	**Affected version:**	2.2.2

Description

As discussed in [#5877](#) a project identifier cannot be composed of only numbers. As of version 2.2.2.stable the instructional text below the project identifier field still fails to mention this:

```
Length between 1 and 100 characters. Only lower case letters (a-z), numbers, dashes and underscores are allowed.
```

This text needs to be revised to explicitly indicate identifiers cannot be composed of only numbers. I suggest:

```
Length of 1 to 100 characters. Lower case letters (a-z), numbers, dashes and underscores are allowed but cannot contain only numbers.
```

History

#1 - 2014-12-02 11:09 - Go MAEDA

- Status changed from New to Closed

- Resolution set to Fixed

The instruction message was changed in [r11130](#):

> Only lower case letters (a-z), numbers, dashes and underscores are allowed, must start with a lower case letter.
Once saved, the identifier cannot be changed.
