Redmine - Defect #15958

AnonymousUser class not found by plugin

Resolution:	Fixed		**Affected version:**	2.3.3

Description
Because the AnonymousUser class is in app/models/user.rb, plugins like http://www.redmine.org/plugins/anonymous-authors can't autoload it. The temporary solution I used was to add autoload :AnonymousUser, "/full/path/to/redmine/app/models/user.rb" to the plugin init.rb. I think the correct solution would be to break AnonymousUser into its own file.
