

Redmine - Patch #15986

Hook for REST API

2014-01-28 15:31 - Kirill Bezrukov (RedmineUP)

Status:	New	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Plugin API	Estimated time:	0.00 hour
Target version:			
Description Would be nice if issue (and other API objects) will have hooks for adding specific data to the API output. <code>call_hook(:api_issue_show, :issue => @issue)</code>			
Related issues: Related to Redmine - Feature #26045: Does API REST show fields added by plugins? New			

History

The provided patch looks reasonable to me.

I found this because I was looking for a way to get the tags associated with a ticket via the rest api.
(Kirill, I'm using your Redmineup Tags plugin -- thanks!)

Maintainers, please can we merge this in? I don't want to have to resort to scaping the Issues page.

I see others are requesting this feature as well [#26045](#) (should probably be closed as duplicate/rejected)
