

Redmine - Defect #15990

Workflow>Field permissions >

2014-01-29 10:20 - dhaya nithi

Status:	Closed	Start date:	
Priority:	Urgent	Due date:	
Assignee:		% Done:	0%
Category:	Issues workflow	Estimated time:	0.00 hour
Target version:		Affected version:	2.3.1
Resolution:	Invalid		
Description			
when i set for particular tracker as read only for Standard fields (tracker) why its not showing any tracker when we try to create new issue?			
actually its should not display only that particular tracker we made read only right ?			

History

- Status changed from New to Closed
- Resolution set to Invalid

when i set for particular tracker as read only for Standard fields (tracker) why its not showing any tracker when we try to create new issue?

The tracker field is not displayed because you made it read-only. The field permission screen controls permissions on fields, it does not control which trackers can be used to create a new issue. Have a look at [#7839](#) instead.
