Redmine - Patch #16002

Assigned-to-my-group css corrupts user.groups association cache

2014-01-30 19:16 - Massimo Rossello

Description

r12006 made for issue #12681 generated a corruption in association caches for using an assignment '=' instead of equality '=='.

Therefore

```
User.current.groups.map(&:id)
```

then returns an array of nils (most probably).

Attached the patch.

Regards,
Massimo
