| I realized that many people (me included) tend to post "+1*" if they want an issue to be implemented. What about implementing a vote button with a counter? So it is also possible to sort and filter the issues depending on the quantity of votes. |                                  |
| <b>Related issues:</b>   |                                  |
