Target version:	2.4.4		
Resolution:	Fixed	**Affected version:**	2.4.2

Description

When showing in web browser an issue with "true/false" custom(s) field(s), in french language we have "oui" (yes) or "non" (no) but when exporting issues we got "true" or "false" instead of "oui" or "not"

We have this problem since we have upgraded from 2.2.4 to 2.4.2

Environment:
Redmine version   2.4.2.stable
Ruby version   2.1.0-p0 (2013-12-25) [x86_64-linux]
Rails version   3.2.16
Environment   production
Database adapter   Mysql2
