Description	
<p>The issue number is shown default on the issue list and issue (after tracker).</p> <p>1. Can we hide the issue number (#) http://www.redmine.org/attachments/download/477/bulk-edit.png</p> <p>2. Is it possible to show the custom field value instead of issue number on top of the issue after tracker. http://www.bilot.com/wp-content/uploads/redmine_issues_small.png</p>
