

Redmine - Feature #1609

Add Ruby 1.8.7 Support

2008-07-09 17:16 - Matthew Williams

<b>Resolution:</b>	Fixed		
<b>Description</b> With the recent exploits found in Ruby and other additions to 1.8.7 I think it would be extremely beneficial to get Redmine working with 1.8.7 as many hosts will soon be making the upgrade and breaking a lot of instances. I'm forced to downgrade my instance of Ruby on a particular box just to run Redmine.			

History

Did you test current trunk ?  
It passes tests with ruby 1.8.7 + rails 2.1. Please report any compatibility problem.

#2 - 2008-07-10 01:54 - Liwiusz Ociepa

Well. I have redmine 0.7.3 on ruby 1.8.7 and it works ok with patched rails 2.0.2.  
There is only one thing changed:  
Change truncate in actionpack-2.0.2/lib/action\_view/helpers/text\_helper.rb to:

```
def truncate(text, length = 30, truncate_string = "...")
  if text.nil? then return end
  l = length - truncate_string.length
  if $KCODE == "NONE"
    text.length > length ? text[0...l] + truncate_string : text
  else
    chars = text.split(//)
    chars.length > length ? chars[0...l].join + truncate_string : text
  end
end
```

That fix can be found somewhere here (issues or board ;)

#3 - 2008-07-24 18:10 - Jean-Philippe Lang

- Status changed from New to Closed
- Target version set to 0.8
- Resolution set to Fixed

Trunk is full compatible with ruby 1.8.7.
