Revision: 12244
Node Kind: directory
Schedule: normal
Last Changed Author: tmaruyama
Last Changed Rev: 12243
Last Changed Date: 2013-10-29 02:24:28 -0400 (Tue, 29 Oct 2013)
```

In the process of upgrading from r11085 using svn update and subsequent to running bundle update in the application root directory I see the following when I run the rake db:migrate task:

```
[redmine]# bundle exec rake db:migrate RAILS_ENV=production
rake aborted!
no such file to load -- rack/cache/context
/var/data/pas-redmine/rails/ruby/1.8/gems/activesupport-3.2.13/lib/active_support/dependencies.rb:
251:in `require'
```

2.4.3 uses Rails 3.2.16.
You need to run "bundle update".

- Status changed from Closed to Reopened

As is clearly stated in my original report this problem occurs AFTER I ran bundle update. Do you have another suggestion?
