

## Redmine - Defect #16149

### Textile within-word markup doesn't work

<b>Resolution:</b>			
<b>Description</b>			
Textile should allow markup to be used inside of a word with appropriate escaping, but this doesn't work in Redmine. For example:  c[*oo*]!  should bold the "o"s. See <a href="http://txstyle.org/doc/16/strong-and-bold-text">http://txstyle.org/doc/16/strong-and-bold-text</a>  <a href="#">Other textile guides</a> claim that braces (I assume they mean {}) should work as well to offset word-internal formatting.
