

Redmine - Feature #1615

Add a tie in to reviewboard

2008-07-10 01:52 - Burt Culver

Status:	Closed	Start date:	2008-07-10
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Issues	Estimated time:	0.00 hour
Target version:			
Resolution:	Invalid		
Description			
Add an optional field to issues that allows you to specify a reviewboard review ID and then populate a review status field based upon a lookup of that reviewboard ID. This way it is easy to see when an issue is pending a review on reviewboard.

- Status changed from New to Closed

- Resolution set to Invalid

I think features for a specific app should be implemented as a plugin. Or you can use a custom field to store "review ID".
