

Redmine - Feature #16207

Use query name as the file name when exporting queries

2014-03-03 14:01 - Martin Seener

Status:	Closed	Start date:	
Priority:	Normal	Due date:

Target version:	5.1.0		
Resolution:	Fixed		
Description By now if you export a custom issue query for ex. as a PDF, its named "issues.pdf" which says nothing and is inconvenient to handle. It would be much better to use the custom query name as the filename (whereas spaces are written as underscores). See my attached image as an example we use it would be cool to directly save it as "incidents_of_last_month.pdf". Just better: Optionally add a date to it "incidents_of_last_month_2014-02-03.pdf". We use such exports for some partners so this would really make our lifes easier

Revision 21773 - 2022-08-24 15:21 - Go MAEDA

Use query name as the file name when exporting queries (#16207).

Patch by Mizuki ISHIKAWA.

History

#1 - 2014-04-05 21:00 - Mathias Nestler

- File *file_naming.diff* added

change including tests attached

#2 - 2014-04-07 10:19 - Martin Seener

- Status changed from *New* to *Resolved*

see attached *file_naming.diff* for the resolving code parts. please merge and close this.

#3 - 2014-05-05 06:50 - Toshi MARUYAMA

- Status changed from *Resolved* to *New*

You need handle non ASCII filename.

See [#16207](#).

#4 - 2014-05-05 06:53 - Toshi MARUYAMA

#8 - 2019-08-23 08:36 - Mizuki ISHIKAWA

- File feature-16207.patch added

I modified patch [file_naming2.diff](#) to apply to the trunk.
This patch renames issues.csv, issues.pdf and timelog.csv to custom field name.

#9 - 2019-09-01 13:00 - Go MAEDA

- Target version set to Candidate for next major release

#10 - 2020-08-22 08:16 - Go MAEDA

- File feature-16207-r19982.patch added

Update the patch for [r19982](#).

#11 - 2022-08-12 07:25 - Go MAEDA

- File feature-16207-r21769.patch added

- Target version changed from Candidate for next major release to 5.1.0

Setting the target version to 5.1.0.

#12 - 2022-08-12 07:25 - Go MAEDA

- Category changed from PDF export to Issues

#13 - 2022-08-24 15:22 - Go MAEDA

- Subject changed from File naming of exported custom queries to Use query name as the file name when exporting queries

- Assignee set to Go MAEDA

- Resolution set to Fixed

Committed the patch. Thank you.

#14 - 2022-08-25 06:49 - Go MAEDA

- Status changed from New to Closed

#15 - 2023-01-16 03:19 - Go MAEDA

- Related to Defect #38182: Exporting users query does not use the query name as file name added
