

Redmine - Feature #16219

Roles and Permissions; Issue Visibility: Parent or Child

2014-03-04 13:52 - Mahyar Ahmadpour-B.

Status:	New	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Permissions and roles	Estimated time:	0.00 hour
Target version:			
Resolution:			
Description			
<p>We assign tasks to someone who suppose to pick up needed files from parent tasks. The only available permissions now in Redmine are:</p> <ol style="list-style-type: none">1. All Issues2. All non-private issues3. Issues created by or assigned to the user <p>I need something between item #2 and #3 so an assignee be able to see only parent task of an assigned task. It also could be like this: see the parent/child tasks but not be able to edit them. This way s/he can see the tasks but is not able to edit them and this need would be fulfilled.</p>
