<b>Description</b> Is it possible for Redmine to send consolidated report at end of business day (or start of business day). In our implementation there are a few projects that I am interested in, and I get around 100+ mails from Redmine. Though there are ways to get around this (email redirection, subscribing to RSS) it will be great if email daily reports can be configured. The feature I request are similar to features available in Yahoo! Groups, Sharepoint etc.  (I was expecting that somebody would have raised this request but could not find it from the search)	
<b>Related issues:</b> Is duplicate of Redmine - Feature #415: Daily Digest option for Mail Notifica... <b>New</b>
