

Redmine - Patch #16375

Enhanced helper method (project\_tree\_options\_for\_select)

2014-03-18 11:00 - Vincent Robert

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Code cleanup/refactoring	Estimated time:	0.00 hour
Target version:			
<b>Description</b>			
Developing new plugins, I would like to use the "project_tree_options_for_select" method from the ApplicationHelper module.			
The current method works well with the 'selected' tag, but the 'disabled' tag is missing.

Ooops, I just have to give it in a block...  
Sorry for the useless issue.

#2 - 2014-04-06 13:32 - Jean-Philippe Lang

- Status changed from Resolved to Closed

OK, thanks for the feedback.
