<b>Category:</b>	Gantt	<b>Estimated time:</b>	0.00 hour

<b>Resolution:</b>			
<b>Description</b>			
In tab GANTT when export gantt chart to PDF, subject of issues write subject(issue.subject) but not id(issue_id).			
I solved this by changing /lib/redmine/helpers/gantt.rb, in def subject_for_issue and then change: pdf_subject(options,"#{issue.id} #{issue.subject}") But i had to do this allways after upgrading. Is it possible to add this to redmine, i think that this is good for all users.			
Thanks, João Mendes
