

Redmine - Defect #16379

Undefined method `each` for nil:NilClass on search for watchers to add

2014-03-18 20:28 - Ricardo S

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Issues	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:	Duplicate		
Description			
Not selecting an user, when 'Searching for users to add' on a New Issue, and clicking on Add instead of Cancel results on the following error on the logs:			
<pre>undefined method `each' for nil:NilClass app/views/watchers/append.js.erb:1:in `_app_views_watchers_append_js_erb__830604308_107476400'</pre>			
Looking and the WatchersController.append action one can see that the u.d attribute fails to be initialized when no user is selected. That seems to be cause.
