Do you have tzinfo plugin installed in vendor/plugins ?
If so, try to remove it and restart.

Your are right.

I have a tzinfo_timezone plugin installed. I remove this plugin "script/plugin remove tzinfo_timezone" and all works fine.

Thank you.

You could also just:

```
gem install tzinfo
```

which is required by the tzinfo_timezone plugin :)

This was wrong, scratch that..

This issue is still current (as of [r1745](#)):

While the FAQ tells you to install tzinfo_timezone to support DST, doing so leaves your installation in an unuseable state.

I fixed the FAQ. tzinfo_timezone plugin should not be installed when using Rails 2.1.
