

Redmine - Defect #16422

In attachment.rb thumbnail function could not return target correct

2014-03-25 03:39 - chih-jen chuang

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Attachments	Estimated time:	0.00 hour
Target version:		Affected version:	2.5.0
Resolution:	No feedback		
Description			
In the lines from 200 to 207			
<pre>begin Redmine::Thumbnail.generate(self.diskfile, target, size) # <== could not return target success, even if target is correct. rescue => e logger.error "An error...." return nil end</pre>			
add return target			
<pre>begin Redmine::Thumbnail.generate(self.diskfile, target, size) return target # <== it's correct on my site rescue => e logger.error "An error...." return nil end</pre>

- Status changed from New to Needs feedback

Could you describe under which conditions it fails to return the target?

#2 - 2014-03-31 03:22 - chih-jen chuang

My environment

OS: ubuntu 12.04

ruby: rvm install ruby 1.9.3p484 rails 3.2.7

database: postgresql 9.1.12

redmine: 2.5.0.stable

ImageMagick: 6.6.9-7

Conditions:

I have a issue with image attachment, but can't see thumbnail of that image.

I trace the code and found the problem in my computer.

It's strange.

http://en.wikibooks.org/wiki/Ruby_Programming/Syntax/Method_Calls#Return_Values

Methods return the value of the last statement executed.

```
$ irb
1.9.3-p545 :001 > def test
1.9.3-p545 :002?>   begin
1.9.3-p545 :003 >     1
1.9.3-p545 :004?>   rescue => e
1.9.3-p545 :005?>   return nil
1.9.3-p545 :006?>   end
1.9.3-p545 :007?>   end
=> nil
1.9.3-p545 :008 > test
=> 1
```

It seems you modify Redmine::Thumbnail#generate
[source:tags/2.5.1/lib/redmine/thumbnail.rb#L41](https://source.ruby-lang.org/ruby251/lib/redmine/thumbnail.rb#L41)
