Target version:		Affected version:	
Resolution:	Fixed		
Description A small dependency on ruby 1.8.7 seems to have been introduced in r1660 . Calling the array index function with a block has only been introduced in ruby 1.8.7, making the new menu mapper options incompatible with ruby 1.8.6. <pre>@menu_items.index { i i.name == after}</pre> Above code causes following error in ruby 1.8.6: <pre>Redmine/lib/redmine/menu_manager.rb:135:in `index': wrong number of arguments (0 for 1) (ArgumentError)</pre>
