Description

A small dependency on ruby 1.8.7 seems to have been introduced in [r1660](#). Calling the array index function with a block has only been introduced in ruby 1.8.7, making the new menu mapper options incompatible with ruby 1.8.6.

```
@menu_items.index {|i| i.name == after}
```

Above code causes following error in ruby 1.8.6:

```
Redmine/lib/redmine/menu_manager.rb:135:in `index': wrong number of arguments (0 for 1) (ArgumentError)
```
