Description			
<p>The history of redmine does not work correctly in Opera 9.2.* and above.</p> <p>Comparisons between older and newer versions work only for two neighbouring versions. For example if there are three different wiki versions 1, 2, 3. Then redmine allows you only to compare version 1 with 2, or 2 with 3, but not 1 with 3. This problem occurs only in Opera. Firefox and IE are fine.</p>

Tested with opera 9.51. Works fine.

Select the newest version on the left column then the oldest on the right column.

#2 - 2008-07-16 22:36 - Anke Maklo

Try to set a version from the 2nd and the 5th version. You will see that it doesn't work.

- % Done changed from 0 to 100

I retested it with 9.5.1 works fine, now! Didn't worked with 9.2.7 though :/
