Redmine - Defect #16558

Unable to change issue status

2014-04-08 09:26 - Steven Jones

Status:	Closed		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	Issues		**Estimated time:**	0.00 hour
Target version:				
Resolution:	Invalid		**Affected version:**	2.5.1

Description

When upgrading to 2.5.1 from 2.5.0 I am unable to change the status of issues!

Steps to reproduce:

1. Visit an issue.
2. Click edit to edit the issue.
3. Change the status of the issue.
4. Ajax request happens, and the form gets replaced out.
5. The issue status is now 'New'.

I'm using chrome.

I can believe that it's something about my setup, I don't have time at the moment to diagnose fully, but will perform a git bisect in a bit and work out the exact commit that introduced this issue.

```
Environment:
  Redmine version                2.5.0.stable
  Ruby version                   1.9.3-p0 (2011-10-30) [x86_64-linux]
  Rails version                  3.2.17
  Environment                    production
  Database adapter               Mysql2
```

History

#1 - 2014-04-08 10:28 - Steven Jones

- Status changed from New to Resolved

Sorry!

This was actually a bug with the following plugin:

redmine_change_issue_author
https://github.com/mcl-de/redmine_change_issue_author
Which upon closer inspection actually re-parses rendered HTML to insert itself. Yuk!

#2 - 2014-04-08 18:16 - Toshi MARUYAMA

- Status changed from Resolved to Closed

- Resolution set to Invalid

Thank you for your feedback.
