Description

I wrote a patch for Feature #15029 that adds relation filters:

- 'any open issues'
- 'none or closed issues'

Currently only the english localisations were added.

Though I suggest a german translation:

```
label_any_open_issues: irgendein offenes Ticket
label_none_or_closed_issues: kein Ticket oder geschlossene Tickets
```

Arthur : any chance you recall which revision you wrote this patch against? I'm trying to apply this to the 2.5.1 release which is the closest release revision behind the date on your file but it doesn't match.
