

Redmine - Defect #16654

Rest API custom field not working

2014-04-14 08:13 - olivier musse

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	REST API	Estimated time:	0.00 hour
Target version:		Affected version:	2.5.1
Resolution:	Cant reproduce		
Description Upgrade to 2.5.1-stable version to have the custom_fields.json API feature available. Any of the other API feature (issues,trackers,users, news....) is working but the /custom_fiels.json is empty while having custom fields defined in my database. Missed something or bug ?			

History

- #1 - 2020-06-14 14:38 - Go MAEDA
- Status changed from New to Closed
 - Resolution set to Cant reproduce

I cannot reproduce the problem. I successfully got custom fields information with the following command.

```
curl -X GET -i 'http://redmine-trunk.test/custom_fields.json'
```

Please reopen this issue if you are still experiencing the same problem with the latest version of Redmine.
