Description

I’m using rdm-mailhandler.rb with a postfix virtual mailbox-handler.

And as subject says start_date is not being set when an issue is created from mail.
I am unsure on where to apply a patch, and how exactly it should be applied.

I think that the setting[default_issue_start_date_to_creation_date] should be applied to an issue that is created via rdm-mailhandler.rb.

Environment:
- Redmine version 2.5.1.stable
- Ruby version 1.9.3-p0 (2011-10-30) [x86_64-linux]
- Rails version 3.2.17
- Environment production
- Database adapter Mysql2

SCM:
- Git 1.7.9.5
- Filesystem

Associated revisions

Revision 13104 - 2014-04-26 08:57 - Jean-Philippe Lang
Set default start date on issues created by email if default_issue_start_date_to_creation_date is set (#16655).

Revision 13156 - 2014-05-24 18:30 - Jean-Philippe Lang
Merged r13104 (#16655).

History

#1 - 2014-04-26 08:57 - Jean-Philippe Lang
- Status changed from New to Resolved
- Assignee set to Jean-Philippe Lang
- Target version set to 2.5.2
- Resolution set to Fixed

Fixed in r13104.
Merged.
