

Redmine - Defect #16668

Redmine links broken when object name contains special characters

2014-04-14 17:31 - Darth Vader

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Jean-Philippe Lang	% Done:	0%
Category:	Text formatting	Estimated time:	0.00 hour
Target version:	2.5.2	Affected version:	2.5.0
Resolution:	Fixed		
Description			
When attaching files with special characters (ampersand is an example), the attachment link does not work:			
<pre>attachment:"Test & Show.txt"</pre>			
Test & Show.txt			
The regular expression in application_helper.rb, parse_redmine_links does parse the filename correctly but it seems that the code that compares attachments to the filename fails to match the two.			
Environment:			
Redmine version	2.5.0.stable		
Ruby version	1.9.3-p231 (2012-05-25) [i386-mingw32]		
Rails version	3.2.17		
Environment	production
