

Redmine - Defect #16669

Markdown formatter should use the :no_intra_emphasis extension

2014-04-14 18:50 - Sam Rawlins

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Jean-Philippe Lang	% Done:	0%
Category:	Text formatting	Estimated time:	0.00 hour
Target version:	2.5.2	Affected version:	2.5.1
Resolution:	Fixed		
Description			
<p>I'm so excited to see Redmine supporting markdown with Redcarpet (#15520)! However, this is causing a lot of unintended emphasis rendering, e.g. at ruby-lang.org [1]. I think the <code>`:no_intra_emphasis`</code> extension should be enabled when creating the Redcarpet::Markdown formatter. From the Redcarpet docs [2]:</p> <pre>`:no_intra_emphasis:` do not parse emphasis inside of words. Strings such as `foo_bar_baz` will not generate `` tags.</pre> <p>The fix is just to add <code>`:no_intra_emphasis => true`</code> to <code>[Redmine::WikiFormatting::Markdown::Formatter#formatter]</code> (http://www.redmine.org/projects/redmine/repository/entry/trunk/lib/redmine/wiki_formatting/markdown/formatter.rb#L125)</p> <p>[1] https://bugs.ruby-lang.org/issues/9726, https://bugs.ruby-lang.org/issues/9724, https://bugs.ruby-lang.org/issues/9719, https://bugs.ruby-lang.org/issues/9683, https://bugs.ruby-lang.org/issues/9679 are just the 5 most recent.</p> <p>[2] https://github.com/vmg/redcarpet#and-its-like-really-simple-to-use</p>
