

Redmine - Patch #16700

Blank content type for attachments attached via Ajax file upload

2014-04-16 12:59 - Jens Krämer

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Jean-Philippe Lang	% Done:	0%
Category:	Attachments	Estimated time:	0.00 hour
Target version:	2.5.2		
<b>Description</b> We recently discovered a bug her at <a href="#">Planio</a> which pretty much affects all attachments created via the Ajax file upload: Attachments are initially created with the correct content type, but later when retrieved via their tokens and attached to their container this gets overwritten with nil.  Please see the patch attached. Testcase included.
