

## Redmine - Feature #16729

### properties of issue dynamically available in wiki

2014-04-22 01:28 - Johan Lichtjager

|                        |        |                        |           |
|------------------------|--------|------------------------|-----------|
| <b>Status:</b>         | New    | <b>Start date:</b>     |           |
| <b>Priority:</b>       | Normal | <b>Due date:</b>       |           |
| <b>Assignee:</b>       |        | <b>% Done:</b>         | 0%        |
| <b>Category:</b>       | Wiki   | <b>Estimated time:</b> | 0.00 hour |
| <b>Target version:</b> |        |                        |           |
| <b>Resolution:</b>     |        |                        |           |

#### Description

It would be very nice to be able to have placeholders for issue properties to use in wiki pages.

For example:

#1672:due\_date

#9811:status

#1878:done

This way you can easily create custom view/summary of a project in a redmine wiki document.

I already posted this in a forum topic but somebody there urged me to create an issue about it. So here it is. The topic can be found here: <http://www.redmine.org/boards/1/topics/42148>

#### History

#1 - 2014-05-01 10:31 - Johan Lichtjager

Jean-Baptiste Barth (<http://www.redmine.org/users/1188>) has created a plugin which implements this feature. It would be great if this feature would be added to the core of Redmine, but until then this plugin can be used by everybody who thinks it would be useful.
