

Redmine - Defect #16755

Field set as read-only still available in the issues list context menu

2014-04-25 17:15 - Ty You

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Jean-Philippe Lang	% Done:	0%
Category:	Issues workflow	Estimated time:	0.00 hour
Target version:	2.5.2	Affected version:	2.3.2
Resolution:	Fixed		
Description I have created a custom field and set it to be read-only for my "Client" role across all statuses. When a user is assigned to (only) this role and updates a ticket the field no longer shows, as expected. However, the same user can still change the field from the context menu on the main issues list. I am using 2.3.2.stable, any suggestions?

Revision 13124 - 2014-05-02 09:32 - Jean-Philippe Lang

Field set as read-only still available in the issues list context menu (#16755).

Revision 13161 - 2014-05-24 18:36 - Jean-Philippe Lang

Merged r13124 (#16755).

History

#1 - 2014-05-02 09:33 - Jean-Philippe Lang

- Subject changed from Field set as read-only still available to edit in issues list context menu to Field set as read-only still available in the issues list context menu
- Status changed from New to Resolved
- Assignee set to Jean-Philippe Lang
- Target version set to 2.5.2
- Resolution set to Fixed

The field shows up in the context menu but the update would not work anyway.
This is fixed in [r13124](#), thanks for pointing this out.

#2 - 2014-05-24 18:36 - Jean-Philippe Lang

- Status changed from Resolved to Closed

Merged.
