

Redmine - Feature #16802

Disable auto-filling tracker, status and priority in new issue creation

2014-05-05 09:07 - Wadim Incognito

Status:	New	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Issues	Estimated time:	0.00 hour
Target version:			
Resolution:			

**Description**

Users, often don't pay attention on tracker field - just because it's already filled by system, and as result - issue gets wrong tracker. But if system will not fill it automatically, user will more probably choose right tracker. The same about status and priority.

History

#1 - 2014-05-14 09:37 - Rafał Lisowski

I had similar issue with time entries.  
I fixed it with a plugin [https://github.com/efigence/redmine\\_timelog\\_empty\\_project](https://github.com/efigence/redmine_timelog_empty_project) but it would be nice to have solution in redmine.
