Description	
<p>hello,</p> <p>i need to add this rule permission to allow <u>watchers</u> will can <u>see</u> and <u>edit</u> issues not assigned to them (so they will haven't 403 error to access).</p> <p>I have no experience in Ruby, but I think that the change could be here: https://github.com/redmine/redmine/blob/master/app/models/issue_query.rb</p> <p>Could give you me a hand? I found a lot of related issues, but this is a problem without solution for the present.</p> <p>Thanks a lot!</p>
