Redmine - Feature #1687

Ability to quote a patch in a comment

2008-07-27 20:28 - Frédéric Moulins

Status:	New		**Start date:**	2008-07-27
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	Issues		**Estimated time:**	0.00 hour
Target version:				
Resolution:				

Description

Use case :

1. Someone posts a patch.
2. Someone else :
    1. reads the issue.
    2. views the attached file using the diff viewer.
    3. clicks on a link "quote for comment".
    4. selects relevant lines and comments it.

This ability helps the patch reviewing process.

If possible, there should be one check box per patch hunk and a link or button (or two : top, bottom) to quote selected hunks.

History

#1 - 2008-07-28 16:22 - Carl Nygard

There is a project called codestriker that provides these capabilities. It is a separate system, but it integrates with most SCM systems. I've used it and it's pretty decent.

Perhaps you can integrate something already written instead of re-inventing the wheel.

#2 - 2008-07-28 19:31 - Daniel N

Yes, something like "codestriker-functionality" to comment "source" would be cool. I´d like to see this for patches as well as for normal commits/revisions as described in #1339

functionality of another tool, so I think this could be closed.

"views the attached file" is Redmine core feature.
