

## Redmine - Feature #16928

### Timetracking config option to make a time entry mandatory when task goes to closed state

2014-05-20 10:24 - Anton Kovalenko

|  |               |                        |           |
|--|---------------|------------------------|-----------|
| <b>Status:</b>   | New           | <b>Start date:</b>     |           |
| <b>Priority:</b>   | Normal        | <b>Due date:</b>       |           |
| <b>Assignee:</b>   |               | <b>% Done:</b>         | 0%        |
| <b>Category:</b>   | Time tracking | <b>Estimated time:</b> | 0.00 hour |
| <b>Target version:</b>   |               |                        |           |
| <b>Resolution:</b>   |               |                        |           |
| <b>Description</b>   |               |                        |           |
| Could you please add an option "requires time entry" to the dialog, which is used for workflow status edit/creation?   |               |                        |           |
| So that when status, which has value of "requires time entry" set true is being set for an issue in the project, that has time entry module enabled, redmine doesn't allow to set such a status with an empty timeentry field. |               |                        |           |
