History

#1 - 2014-06-02 22:42 - James H

Currently, Redmine seems to show issues on "My Page" with the oldest issues first.
Some of our users would like to have it so that the newest or most recent items are first.

Eventually, allowing user-level preferences for setting filters and sorts for each element in "My Page" would be the most comprehensive end goal of this feature request.
