<b>Resolution:</b> Duplicate	
<b>Description</b> In issues, when we add attachments with a private notes, when the issue become public, the attachment is public too.  It would be great to add "private" checkbox or anything else to have the distinction between public and private attachments, like notes issue.  Or other thing, link attachment to each notes, instead of issue.	
<b>Related issues:</b> Is duplicate of Redmine - Feature #12677: Private attachments for issues <b>New</b>	

### History
