Target version:				
Resolution:				

Description

Will be good for attaching an icon.

For example:
menu :top_menu, "Timeplan", :controller => 'timeplan', :action => 'index', :html => { :class => 'icon myicon' }

I just tested this with trunk r1921 and it worked. Can you give it a try?

```
# init.rb
menu :top_menu, :bulk_time_entry, {:controller => "bulk_time_entries", :action => 'index'},
     :caption => :bulk_time_entry_title, :html => { :class => 'icon myicon' }, :if => Proc.new{User.current.
logged?}

# Rendered html
<li><a class="icon myicon" href="/bulk_time_entries">Bulk time entries</a></li>
```
