No. The redirection still happens. I tested in latest trunk ([r14155](#)).

Related/duplicates [#9016](#).

From my checks, the current route for viewing issue time entries is /projects/redmine/time\_entries?issue\_id=~1 and you are redirected to the same page after delete/edit action.

I'm closing this issue from 2 reasons:

- I tried again and it works as expected
- Lack of feedback.
