

Redmine - Defect #17309

RSS feed gives away localhost link

2014-06-26 09:32 - Konstantin Kivi

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Feeds	Estimated time:	0.00 hour
Target version:		Affected version:	2.5.1
Resolution:	Fixed		

Description

I can see rss streem but not use it, because it referes to unaccessible content.

Note localhost:3000 links below.

Email notification contains valid links, though.

redmine works behind nginx, but I think it's irrelevant

```
<?xml version="1.0" encoding="UTF-8"?>
<feed xmlns="http://www.w3.org/2005/Atom">
  <title></title>
  <link rel="self" href="http://localhost:3000/issues/16102.atom?key=12de9c34533537eeb40bca3c643322ef39adef9c"/>
  <link rel="alternate" href="http://localhost:3000/">
  <id>http://localhost:3000/</id>
  <icon>http://localhost:3000/favicon.ico?1396112202</icon>

Associated revisions

Revision 13196 - 2014-06-30 15:35 - Toshi MARUYAMA

Gemfile: update builder version >= 3.0.4 (#17309)

History

#1 - 2014-06-26 09:35 - Konstantin Kivi

note [#11147-3](#)

#2 - 2014-06-26 09:38 - Toshi MARUYAMA

- Status changed from New to Needs feedback

What is "Host name and path" in setting?

#3 - 2014-06-30 13:31 - Konstantin Kivi

- File Selection_070.png added

redmine.komtex

This address is resolvable in our local network and it is how we get to redmine in browser

#4 - 2014-06-30 15:12 - Toshi MARUYAMA

- Related to Defect #11147: relative_url_root changes only css... , but not dynamic pages added

#5 - 2014-06-30 16:39 - Toshi MARUYAMA

Try [r13196](#) change to your installation.

#6 - 2014-07-02 06:34 - Konstantin Kivi

It didn't help. we changed the line from patch and installed required builder version.

#7 - 2014-07-02 06:49 - Toshi MARUYAMA

- Status changed from Needs feedback to New

Redmine uses url_for in this line.

[source:tags/2.5.1/app/views/common/feed.atom.builder#L4](#)

So, we cannot do anything.

It is problem of your web server or builder.

#8 - 2020-11-14 06:42 - Go MAEDA

- Status changed from New to Closed

- Resolution set to Fixed

Fixed by [#10535](#) for upcoming Redmine 4.2.0. After [r19810](#), Redmine uses Setting.host_name ("Administration" > "Settings" > "General" > "Host name and path").

#9 - 2020-11-14 06:42 - Go MAEDA

- Related to Defect #10535: Atom feeds for the Project Activity contain incorrect hostname added
