Description

i'd very much like to have a feature similar to Patch #222. that is, a per-user option to:

- "auto-watch issues i've modified" (i.e., autowatch if i create or modify an issue)
- "auto-watch issues assigned to me"

Unlike Balazs (author of Patch #222), i'd want users to be able to choose their own "autowatch" policy.

Other than Patch #222, I couldn't find any other mention of this feature. Are there plans to implement it?

If you're going to add this, might as well go all the way and let users define issue filters to auto-watch.

#4 - 2011-02-24 04:53 - Ryan Cross

see also #2716

#5 - 2013-04-24 08:39 - # And

Try it out: https://github.com/logical-and/redmine_auto_watch. Watchers added on issue update and issue create from: author, assignee, previous assignee if any.

#6 - 2016-03-24 10:23 - Go MAEDA

- Related to Feature #4347: Contributing to an issue should automatically add the user to the watchers list added

#7 - 2018-09-24 13:10 - Go MAEDA

- Has duplicate Feature #28312: Option to automatically add user as watcher to an issue if they edit an issue they're not currently involved with added

#8 - 2022-03-19 12:48 - Marius BĂLTEANU

- Status changed from New to Closed

- Resolution set to Duplicate

I'm closing this because the first option was already committed for the upcoming 5.0.0 and for the second I've added a patch to #4347.
